RESOLUTION

We call on European investors (such as UBS, Swiss National Bank, Amundi, and ABP) to divest from major ICE supply chain contractors that actively assist the agency in the over-policing and terrorizing communities, which Minnesotans recently suffered from.

Whereas we CWA Local 7250 have tirelessly challenged in recent months ICE's over-policing, racial profiling, harassment, and killing of US citizens, we should be aware of finance actors that are invested in the operations of the above activities.

Whereas we view countries such as Switzerland, France and Netherlands as important international allies that stand for and seek to defend the same democratic values that we in CWA Local 7250 also do.

Whereas these democratic values and principles have been ruthlessly violated in our community in recent months and that therefore supporters of said democratic values and principles should not stand to profit from these operations.

Whereas these operations have perpetuated systemic abuse with catastrophic consequences that the people of Minneapolis, Chicago, and Los Angeles have experienced in recent months.

Now, therefore, be it resolved CWA Local 7250 calls for European investors to:

1. Divest from all major ICE contractors.
2. Engage with AT&T to convince the company not to pursue its contract with ICE.
3. Remain diligent and cognizant of the securities they hold, and the human rights said companies violate at home and abroad.

Resolution Approved by CWA Local 7250 March 2026 Membership Meeting
